CAREER OBJECTIVE

I am currently in my 3rd year of B.Tech CSE at LBRCE and I want to start my career as a software developer. I have been practicing Java, working on small web projects and learning SQL on my own. I want to join Cognizant as a fresher and work on real problems where I can keep learning and improve over time.

EDUCATIONAL DETAILS

B.Tech - CSE, LBRCE, Andhra Pradesh	2023 - 2027 (Pursuing)
Current CGPA: 8.0 / 10.0	

Intermediate (MPC) - Narayana Junior College, AP	2021 - 2023
Percentage: 90%	

SSC - Andhra Pradesh Board	2021
Percentage: 100%	

TECHNICAL SKILLS

Languages I know: Java, JavaScript (basics)

Web: HTML, CSS, little bit of JavaScript for DOM and events

Database: SQL queries, basic DBMS concepts like joins and normalization

Others: Arrays, Linked lists, basic sorting - still learning DSA

Tools: Git, GitHub, VS Code

PROJECTS DONE

Portfolio Website	Tools: HTML, CSS, JS
--------------------------	----------------------

- I built this to have an online presence. It shows my info, skills and projects.
- I made it work on mobile also. Put it on GitHub Pages so anyone can see it.
- It was a good way to practise CSS layouts which I was finding difficult before.

Student Records System	Tools: Java, MySQL
-------------------------------	--------------------

- A simple program where you can add, view and delete student data.
- Connected Java with MySQL database using JDBC. Wrote queries for insert, update, delete.
- Applied what I learned in DBMS subject - used proper table structure and foreign keys.

CERTIFICATIONS

- NPTEL - Joy of Computing using Python (completed 2024)
- NPTEL - Internet of Things (completed 2024)

STRENGTHS

- I pick up new things fast - when I don't understand something I look it up and try it out
- I can work well in a team and I am comfortable asking doubts
- I stay consistent - my marks have been good throughout (100 in 10th, 90 in 12th)
- I am patient with debugging - I don't give up easily when something is not working
